## CCTV System (IP/Analog)

We provide the most up to date & cost effective security solutions for all your CCTV needs, with a variety of cameras & control equipment's from leading manufacturers. We offer state of art technology for Offices, Vilas, Shopping Malls, Factories, Hotels, Government buildings, Community Surveillance etc. Our product range comprises of Analogue Cameras & IP Cameras, Fixed & PTZ Cameras, DVR & NVR's and Remote Monitoring facilities.

Installing high-quality, reliable security cameras enable you to keep an eye on the interior or exterior of your business or house and provide peace-of-mind security. Video surveillance camera range includes indoor / outdoor cameras, IR night vision, dome, bullet and PTZ cameras, and IP and megapixel options.

## Access Control System

We have vast experience in the area of access control / door entry systems and can recommend a suitable system from the many we regularly install. Whether it is to stop unwanted intruders passing the reception area unnoticed or restricting access to certain areas within a building, timekeeping and payroll purposes,

We have the product to suit your circumstances. Our access control / door entry systems can be push button, keypad coded, biometric or operated using an electronic fob and scaled from single installations to major building systems incorporating multiple doors/apartments.

## SMATV System (IPTV/DTV)

Our professional technical team can design, supply, and install all products and systems required to build TV distribution networks in multiple reception sites, such as IPTV, RF head ends, and IF distribution systems. SMATV (Satellite Master Antenna Television) allows you to receive programming straight from the satellite. You can choose which programming you want, taking advantage of special corporate broadcasts, distance learning programming, sporting events, and foreign language programming. Orientals supplies and installs all products and systems required to build TV distribution networks in multiple reception sites. Our highly trained and experience installation and network support teams are on-hand to offer their full support throughout the installation and thereafter.

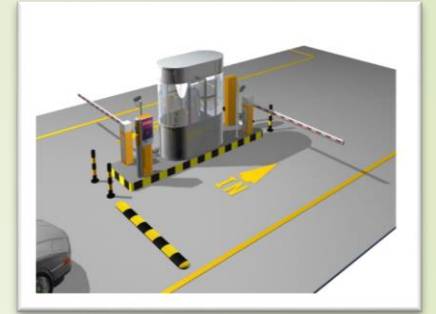

## Gate Barrier System

We are a renowned supplier of electrical and automatic gates and barrier systems in Dubai. These gates are attached with automatic magnetic locks which provide highly secure access. The locks operate through biometric or fingerprint technology to unlock and grant access.

We are providers of the most efficient security solutions. These gates can be installed everywhere including offices, houses, hotels etc.

We are also offering you automatic parking barrier systems. With the help of magnetic lock technology these barriers provide a very secure access for your and your vehicle's security.

## Audio/Video Intercom

Audio/Video intercom systems work for single family homes, offices, apartment buildings and residential communities. In this systems you never have to wonder who is at your front door again. Not only does it give you and your family piece of mind and extra security, you can also use this as an in-home intercom system to communicate from room to room with our state of the art monitors.

We offer installation of Audio intercom, Video intercom, Intercom with door lock and security features, Intercom solution for high rise buildings

## PABX (IP/Analog)

We have been approached for installing PABX system in Dubai in many renowned brands for running their company's operations on lesser costs and high quality.

We promise to deliver such quality solution for your company too.

We believe that PABX installation in Dubai is a fundamental part to strengthen Communication that makes the company more powerful.

PABX system installation is used in replacement by businesses or replacing traditional telephone exchange systems. It helps to provide functions

Like conferencing calls, auto-receptionist, extension numbers of workers, and dial the desired colleague number. All types of calls are sent as data packets instead of the Old-fashioned phone network.

## Audio/PA System

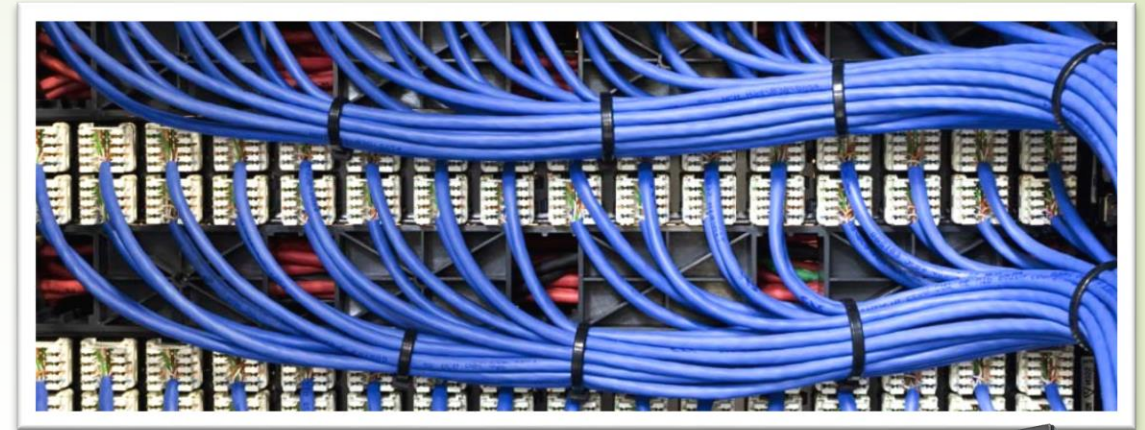

The best of art and technology are combined to bring you the most exciting multimedia experience. Custom designed systems based on your visions and budgets give us an edge over other system integrators. We transform your dreams into reality. With access to the latest technologies and World leading brands we design, Supply, install and support all hardware and peripherals required to provide a personalized, innovative and effective solution. We commit to provide guaranteed outcome and to exceed expectations in functionality, performance and value. Our professional AV Design Consultants are qualified to provide individually tailored options for Conference Facilities, Boardroom, Meeting Rooms, Lecture Theatres, Classrooms or Retail Outlets. Our wide range of products and services offer unlimited solutions

## Data Structure Cabling

ALYAD ALMUBDIEA has taken its expertise in providing quality structured cabling solutions, and has developed a reliable, innovative solution for the professional environment.

Our cabling solution products satisfy the need for a fast, dependable, yet flexible system to accommodate today's changing voice, data and video requirements. Our experienced and dedicated team provides an 'end to end' service from design to implementation. We design and build cabling infrastructure systems that support multiple voice, data, video and multimedia systems. We will help you evaluate, design and install the optimum integrated system for your company. We provide infrastructure cabling of the highest quality and standards, to ensure that your networks run at full wire speed and maintains the highest possible availability.
